

ContentKeeper® Express

MONITOR MANAGE CONTROL SECURE

ENTERPRISE WEB FILTERING AS A SERVICE

Hassle-free Internet Filtering

Simplifying enterprise Web Security

Effective business demands efficiency and cost-effectiveness. Regularly reviewing IT security operations to assess if they are truly meeting your business needs is part of good management. For many enterprises, IT Security is increasingly resource-intensive. The explosion in Web-based threats makes it difficult to manage without quality technology and dedicated technical and human resources.

Software as a Service (SaaS) solutions are a viable alternative if you wish to devote more resources to other critical business functions. ContentKeeper Express Web filtering as a service reduces the resource-intensive nature of maintaining Web security while still delivering enterprise-level protection against Web-based malicious threats.

ContentKeeper provides enterprises with tools to simplify their Web security, reducing the hassle of filtering the Internet and delivering proactive protection against malicious threats.

ContentKeeper® Express is a cloud-based Web filtering service that monitors, manages, controls and secures web browsing in your organization. Provided as a service, ContentKeeper Express takes the hassle out of managing and enforcing Acceptable Internet Usage policies while providing scalable enterprise-level protection without the need for costly on-site equipment and software. It keeps Web-based threats at bay, stopping them before they reach your network, utilizing the best of ContentKeeper's patented technology, Closed Loop Collaborative Filtering™.

ContentKeeper Express is a flexible and comprehensive Web filtering solution.

- ✓ In-the-cloud management and processing
- ✓ High speed filtering, no induced latency and no bandwidth constraints
- ✓ Full end-user identification
- ✓ Remote Web-based policy server and classification nodes
- ✓ Flexibility - define and enforce your own Acceptable Internet Use policies
- ✓ World's best site coverage using Patented Closed Loop Collaborative Filtering™ technology
- ✓ Blacklist/Whitelist Function
- ✓ Surf the Web with low rates of overblocking
- ✓ Safe Search, Time of Day, Keyword and File Type Blocking Parameters
- ✓ Chat Control - monitor and restrict online chatting
- ✓ Comprehensive categories to ensure all types of Internet content are recognized and classified accurately
- ✓ Protection against filtering bypass methods
- ✓ Remote management and enhanced reporting
