

**MONITOR • MANAGE • CONTROL • SECURE • MONITOR • MANAGE • CONTROL • SECURE**

**ContentKeeper SSL** prevents company losses from identity fraud or inappropriate access.

**ContentKeeper SSL** protects internet transactions such as e-carts and online banking from phishers, hackers, malicious spyware, Trojans, and worms.

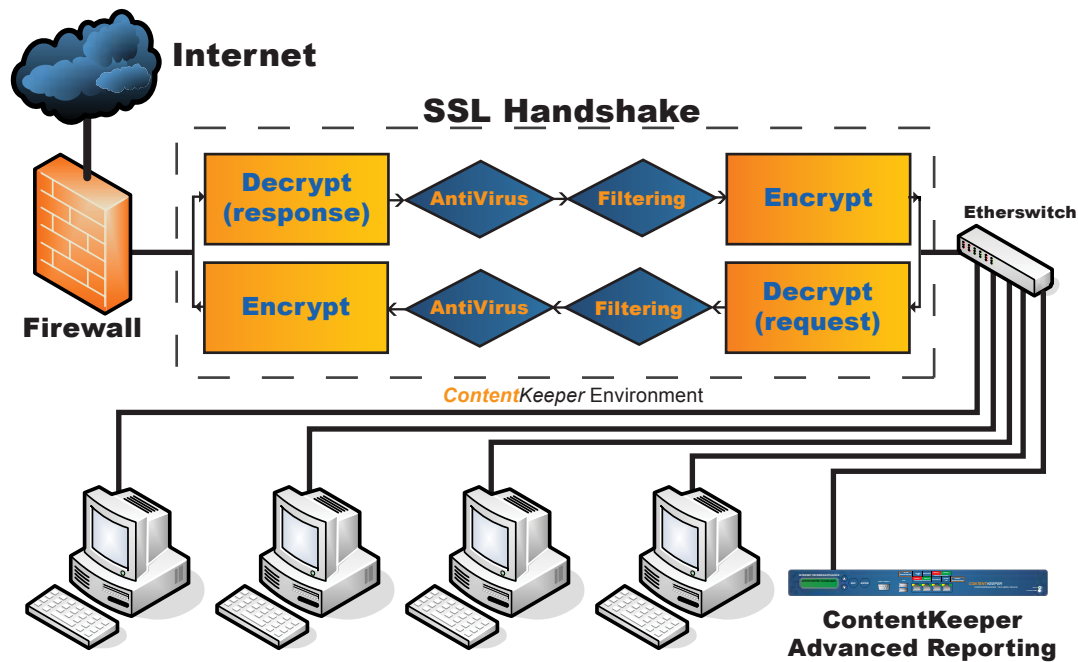

**ContentKeeper SSL** enables company's to comply with the legal obligations of privacy to protect their client's confidential information.

**ContentKeeper SSL** provides access to a 'trusted' white list of secure websites where e-transactions can take place.

**ContentKeeper SSL** enables users to enjoy the convenience of the internet whilst maintaining the privacy of personal details such as passwords, credit card details, and banking details.

**ContentKeeper Technologies** specialises in producing state-of-the-art appliances and software designed to assist Corporate, Government, Educational and ISP clients to better manage their organisation's access to internet resources.

**ContentKeeper Secure Socket Layer (SSL)** is a revolutionary technology based on combining Internet security with Internet filtering. SSL reduces the susceptibility of internet transactions and safeguards an organisation's reputation by delivering confidentiality to online users.

## Protecting Personal Data on the Internet

Content Keeper SSL establishes a relationship between the user, their PC, and the server at the 'other end' of the connection. An 'SSL handshake' takes place in which all the information exchanged becomes encrypted and indecipherable to hackers.
